

### REMARKS

The new claims and the corresponding amended summary of the invention have been made to clarify the scope of the invention claimed.

The provisional patent 60/442,343 has been incorporated by reference as stated on the first page of the application. The first drawing sheet of the provisional application included text "air chamber" in FIG. 1A and "air pressurization port" in FIG. 1C and identified the corresponding structures. FIGS. 1A and 1D of the provisional application also included phantom lines showing the internal air chamber.

The application as filed included phantom lines showing the air chamber in FIGS. 1B, 1C, and 2A. The structure of the air pressurization port was also shown in FIGS. 1B, 1C, and 2A as originally filed.

Accordingly, FIGS. 1A-1D and 2A have been amended to include the removed phantom lines and added reference numerals.

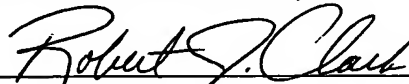

The specification has additionally been amended to include reference numeral and text associated with these changes and supported by the drawings as filed and by the provisional patent application drawings. No new matter has been introduced.

Prompt consideration of this application and allowance of the claims are requested. If the Examiner should have any question regarding this application or the amendment, a call to Applicant's attorney would be appreciated.

Respectfully submitted,

HAHN LOESER & PARKS, LLP

**Amendments to the Drawings:**

The attached sheets of drawings include changes to FIGS. 1A-1D and FIG. 2A. These sheets, which includes FIGS. 1A-1E and FIGS. 2A-2B, replace the original sheets including FIGS. 1A-1E and FIGS. 2A-2B. In FIGS. 1A and 1D, previously omitted phantom lines have been added. Reference numerals and lead lines have also been added to FIGS. 1A-1D and FIG. 2A.

Attachments: Two (2) annotated sheets showing changes;  
Two (2) replacement sheets.
